Turin Papyrus, for Dynasty XII ²			213	years	
Beginning of XVIIIth Dynasty			2170	1830	as astronomically fixed.
			A.K.	B.C.	

¹The .A.K. datings are not guaranteed within .5 year. Thus, the 7th year Senusert III, according to the Table, is 2082.50-2083.5 A.K., whereas the Sirius dating (¶317) shows that the regnal year extended to 2083.5 A.K. (1916 B.C.)

²The List of the Turin Papyrus was compiled during late XVIIIth Dynasty, or early XIXth Dynasty. Its data as above, by giving Dynasty XII terminating at the fixed astronomical date of Dynasty XVIII beginning confirm the early XIXth Dynasty Lists of Abydos and Sakkarah, which both place the kings of Dynasty XVIII following in succession after the kings of Dynasty XII.
